

PREPARED FOR FUJIFILM • 12 OCTOBER 2026

The operating system for the print network.

Four AI-powered platforms that quote, produce, sell and market print
– for franchise networks, independents and the vendors who equip
them.

THE OPPORTUNITY

Every press is only as productive as the software around it.

Advantage MIS

Quote, job, prepress, web-to-print, EPOS and finance for print centres.

FIELD PILOT

Advantage AI

Franchise operating system with assistant, coach, lead scoring and metered AI.

BUILT

Raring2go!

One edition → print-ready PDF and digital magazine for 80+ territories.

DUE Q2 2027

DPS Sales Intelligence

AI CRM and equipment-sales engine for print-technology suppliers.

BUILT

One integration surface, many customers. Connect a Fujifilm device once and every centre on the platform can quote, schedule and sell against it with real speeds, real click costs and real capacity.

THE MARKET

A large industry, getting leaner.

£13.75bn

UK printing turnover (2022),
~7,200 companies

\$67bn

US commercial printing,
~18,000 companies

~\$510bn

global commercial printing
(range \$320-840bn)

£344k-£3.4m

UK subscription revenue at 1-10% of companies,
£399-a-month guide price

-15% / -20%

UK companies / employees, five years

Four platforms. Under seven months.

Counted directly from the code repositories on 8 October 2026.

1,700+

data models and tables

5,500+

API endpoints and routes,
each with server-side
authorisation

10,000+

automated tests plus CI guards
on unprotected routes

3,300+

commits since 17 March 2026

100+

scheduled jobs and
automated workflows

1.5M

lines of code, including tests

ADVANTAGE × FUJIFILM

Already speaking your **press language.**

RATED ENGINE SPEEDS

3,900-6,000

pages per hour per profile, driving live time-and-cost

- 1 • **Verified catalogue** – 100%
- 2 • **Datasheet extraction** – per-field confidence
- 3 • **AI recall** – capped at 60%

Jan 2027

Fujifilm Flow API access – the network integration. Connects Advantage jobs and workflows to the press floor, with JDF/JMF connectors already in the codebase.

ADVANTAGE MIS • IN ACTION

Quote it. Cost it. Put it on the press.

Audit trail written

Introducing the Advantage Coworker.

The AI-coworker category raised a \$75M Series A in 2026 (reported). General-purpose coworkers prove people will hire an AI. Print needs one that knows what a click cost, a bleed and a Revoria press are – and can be trusted with a customer's money.

- One coworker across all four platforms: in-app, Slack/Teams, WhatsApp
- Acts with the user's own permissions; approval tiers for sends and spends
- Pricing stays in the engine – the AI can't invent a number
- Proactive daily briefing, editable print playbooks, enquiry-to-invoice in one chat

Quote 500 A5 leaflets, 170gsm silk, 4/4, delivered Friday.

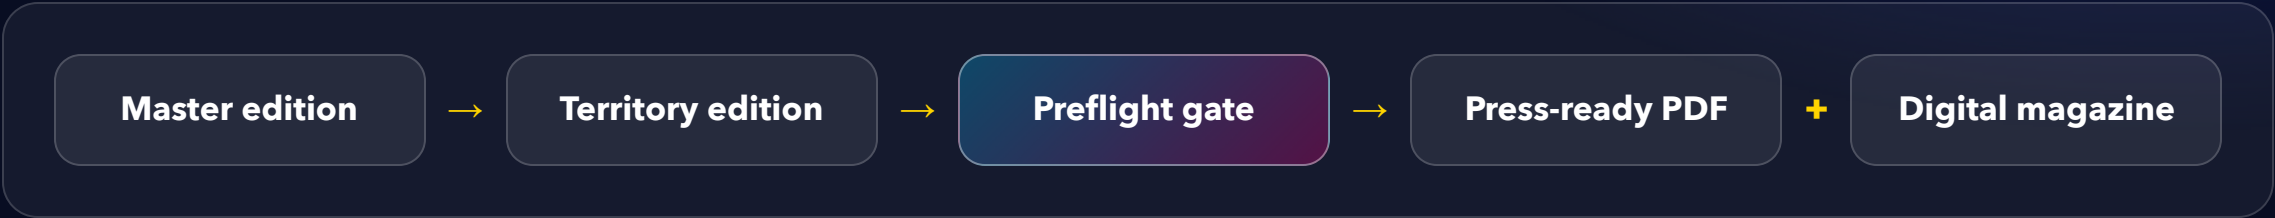

Draft quote ready. Costed on your centre's press profile, imposed 4-up. **Flagged:** no trimming rate set. Send for approval?

Add the rate, then send.

Done. I'll chase artwork Wednesday and book the press when they approve the proof.

Illustrative

One edition. 80+ territories. Print and digital.

- HQ locks templates; territories edit local zones
- HQ corrections flow down without erasing overrides
- Print output blocked until preflight and approvals pass
- Six AI agents: content, events, sales, artwork, finance, franchise

SCENARIO	TERRITORIES	EDITIONS / YR	PAGE-SIDES / YR
Proof point	3	12	0.77M
Scale-up	25	100	6.4M
Full network	80	320	20.5M

Illustrative: 4 issues a year, 32 pages, 2,000 copies per territory – to be replaced with HQ actuals.

Advantage in the field: **the scorecard.**

since July

£500,000+

transacted through the platform

Payments, web & SEO (listings health, landing-page builder, Search Console), marketing automation and AI governance – the engine the print platforms are built on.

Where Fujifilm accelerates it.

NOW

Advantage in the field

Live pilot, Fujifilm press catalogue seeded, Raring2go! in internal UAT.

JANUARY 2027

Fujifilm Flow API access

The network integration: jobs and workflows connected to the press floor.

Q1 2027

Advantage Coworker

Six upgrades roll out across the suite.

Q2 2027

Raring2go! Business-in-a-Box launches

Edition Factory, native email, finance, AI agents.

WITH FUJIFILM

Print engine & dealer sales engine

PDF/X, colour and imposition for Revoria; DPS refresh-window alerts for Fujifilm equipment.

How it earns – and how you could take part.

- **Subscription (guide prices):** Advantage from £399 a month · franchise platform £49 · Raring2go! £49
- **Metered AI** credits with markup and budget caps
- **Payments:** 2.9% transaction fee
- **Network & marketplace** fees
- **Fujifilm channel** bundled with press sales

Per 100 paying accounts a year: Advantage £478,800 · franchise platform £58,800 + 2.9% · Raring2go! £58,800.

Investment

To be discussed

shaped with Fujifilm: scope, level and structure

Structure

To be shaped with Fujifilm: invest, licence or channel

Would fund: Flow integration & devices · print engine · security & certification · rollout, support & marketing · Coworker & AI

WAYS TO WORK TOGETHER

Four paths for Fujifilm. You choose the pace.

A • Invest and grow together

DEEPEST PARTNERSHIP

Equity upside, first-integration status, roadmap influence, channel rights and opt-in sell-through data. Funds the Flow integration, print engine and rollout.

B • Licence the software

A branded workflow offer under Fujifilm's name without building it. We run the platform and keep the IP.

C • Roll out through your channel

Reseller or referral: Advantage offered alongside press sales, with a revenue share. No equity, no build cost.

D • Do nothing

We carry on; Flow API access still planned for January 2027. Fujifilm stays one machine profile among many, and a rival may integrate deeper first.

INVESTMENT RANGE

What each level of investment lets us scale to.

LEVEL 1 · FOUNDATION

12 months

first phase

Flow integration, device connectivity, security certification, browser tests in CI.

100

paying centres · **£478,800 a year**

LEVEL 2 · ACCELERATE

18 months

second phase

Adds the Advantage Coworker and an onboarding team; Scopes 2 and 3 add the print engine and Raring2go! launch.

500

paying centres · **£2,394,000 a year**

LEVEL 3 · SCALE

24 months

third phase

Adds US and Australia rollout, a joint Fujifilm channel and a dealer sales engine.

1,000

paying centres · **£4,788,000 a year**

Annual figure = centres × £4,788 (£399-a-month guide price, not fixed), subscription only. Scenarios, not forecasts. Today: 39 centres live across versions.

Back the print side only – or the whole suite.

1 • Print core

Advantage MIS, DPS Sales Intelligence, Advantage Coworker and Fujifilm Flow integration.

Guide: £399 a month per centre

2 • Print + publishing

Adds Raring2go! and the print engine: editions become recurring press volume.

Plus guide: £49 a month per account

3 • Whole suite

Adds the franchise platform, live in three countries, with payments, SEO and automation.

Plus guide: £49 a month and 2.9% transaction fee

Choose a scope, then a level (Foundation, Accelerate or Scale). Funding amounts to be discussed. Guide prices reflect current thinking and are not fixed.

YOUR APPETITE

Help us shape **the right fit.**

Which path interests you?

- A · Invest and grow together
- B · Licence the software
- C · Roll out through your channel
- D · Not at this stage

Which scope?

Print core · Print + publishing · Whole suite

What commitment feels realistic?

A joint pilot first · a smaller first step · a larger strategic commitment

What would you need to see?

More pilot results · security certification · references · a technical session on Flow

Next steps: a conversation, then a working session on Flow and the pilot, then a tailored proposal once your direction is clear.
